

ERRA NAVEEN

Data Analyst | MIS Analyst | Reporting Analyst

✉ naveenerra70@gmail.com ☎ +91 76610 07433 📍 Hyderabad, India

PROFILE SUMMARY

Professional with 5+ years of experience in healthcare sales, operations, administration, patient relations, and reporting, complemented by completed training in Excel, SQL, Power BI, and Tableau. Hands-on experience with data cleaning, data management, reporting, dashboard development, KPI tracking, and business analysis through practical data analytics projects. Strong understanding of healthcare and business operations, with the ability to analyze data, identify trends, and translate business requirements into meaningful reports and actionable insights. Seeking opportunities in Data Analytics, MIS, Reporting, Operations Analytics, or Business Analysis.

TECHNICAL SKILLS

Data Analysis & Reporting

Data Cleaning, Data Validation, Data Transformation, Exploratory Analysis, KPI Tracking, Reporting

Tableau

Dashboard Development, Data Visualization, Calculated Fields, Interactive Filtering

Power BI

Data Visualization, Interactive Dashboards, KPI Reporting, Basic DAX, Slicers, Drill-down, Bookmarks

Microsoft Excel

Data Cleaning, Pivot Tables, Lookups, Charts & Reporting

SQL

Data Retrieval, Filtering, Joins, Aggregations, Subqueries, CTEs, Window Functions

Business & Operations

Requirements Understanding, Stakeholder Coordination, Healthcare Operations, Business Reporting

Projects

Finance & Sales Analytics Dashboard — Power BI

Tools: Power BI, DAX, Data Visualization, Interactive Dashboards

- Developed an interactive Power BI dashboard to monitor **Sales, Profit, COGS and Units Sold** through KPI cards and visual analytics.
- Analyzed **sales by country, sales by segment and profit by product** to evaluate business and financial performance.
- Created time-based analysis comparing **current-year sales with last-year sales and growth percentage** using DAX measures.
- Implemented **Year, Country and Segment slicers** to enable interactive analysis and filtering.
- Applied **waterfall analysis, bookmarks, hierarchical drill-down, conditional formatting and regional profit analysis** across multiple report pages.

Amazon Sales Analytics Dashboard — Tableau

Tools: Tableau, Data Visualization, Calculated Fields, Dashboard Design

- Developed an interactive Tableau dashboard to analyze **sales performance across product categories, countries, brands and payment methods**.
- Created KPI calculations for **Total Sales, Average Order Value (AOV) and Total Orders** using Tableau calculated fields.
- Analyzed **order-status distribution** and revenue contribution by brand and payment method to identify sales patterns.
- Built geographic sales analysis to compare **country-level sales performance** and used interactive dashboard filtering for data exploration.

Business & Sales Data Analysis — MySQL

Tools: MySQL, SQL

- Analyzed customer, order, product and payment datasets using SQL queries.
- Used **JOINS, GROUP BY, HAVING and CASE statements** to generate business-focused insights.
- Applied **subqueries, CTEs and window functions** including LAG() and DENSE_RANK() for advanced analysis.
- Created SQL views to summarize **product-category sales and order performance**.
- Used constraints, foreign keys, stored procedures and triggers while working with relational database structures.

Sales Performance & Profitability Analysis Dashboard — Microsoft Excel

Tools: Microsoft Excel, Pivot Tables, Pivot Charts, Data Cleaning, Data Analysis

- Analyzed **1,036 sales transactions** to evaluate sales, cost, quantity and profitability trends.
- Built interactive Excel analysis using **Pivot Tables and Pivot Charts** to evaluate monthly and weekly sales performance.
- Analyzed sales by **product line, customer and sales representative** to identify high-performing segments.
- Created KPI-based reporting for **Total Sales, Total Cost, Total Profit, Total Quantity and Transactions**.
- Performed business-oriented analysis to identify sales trends and performance patterns.

DATA ANALYTICS TRAINING

DATA ANALYTICS TRAINING

ExcelR

Data Analytics Training | Excel, SQL, Power BI & Tableau

- Completed Data Analytics training with hands-on experience in **Excel, SQL, Power BI, and Tableau**.
- Developed **interactive dashboards, reports, and KPI visualizations** using Excel, Power BI, and Tableau to identify trends and support data-driven decision-making.
